"Save Us from Our Friends." TO THE EDITOR OF THE DAILY NEWS:-

To the EDIOR of THE DAILY NEWS:—
Why can you net, Mr. Editor, allow your Democratic friend of the Post to ride his favorite hobby in relation to the "poisoning" affair at the National Hotel in peace. If true, it is only a repetition of what has in numberless instances been practised by the friends par excellence of the WIRE PULLED pullers of the incorruptible Democracy—and if not true, the Editor of the Post is but anticinating by a few years, perhaps only anticipating by a few years, perhaps only by a few months, what a Democratic Presi-dent, or any other Democrat of sufficient murk, may expect to receive at the hands of these FRIENDS of the church, the unscrupulous and audacious successors of the control of the church the church of the control o punds and materials accessors to the St. Bartholomew massacre—the poisoners of Ganganelli, of King Joseph and countless other crowned heads and individuals who stood in their treacherous path of every sta-

stood in their treacherous path of every station and degree.

Why, Mr. Editor, I make no hasitation
in saying that the man who is thoroughly acquainted with history must be blind, who
at this day can cast his eyes over these
United States and take a retrospective view
of its political effairs and doubt that the general controlling influence in our Government
is of a foreign origin and of a character that
never has and never will, or can, so long as
it remains under its original organization,
bestute to use any means however diaboli-

the remains under his digital organization, the state to use any means however diabolical to secure its ends.

I do not myself believe that the time has yet quite come—for the white Halian powedo. that has been found so effective in product. ducing slow death in the conventional pisons of Italy to be generally introduced in politics in this country—but I think it will

come anon.

The conspiracy that was set on foot in Europe immediately after the re-establishment of the Bourbons—that war foreshadowed to the prophetic vision of Washington,—anticipated by Lafayette,—and revealed by some of the Catholic crowned heads to the Duke of Richmond more than thirty recess are acceptable was forceted out, and exyears ago,—that was ferreted out and ex-posed by Professor Morse after several years ojourn and examination in Europe—is prosojourn and examination in Entitle—is pro-gressing apace. The Holy American De-mocratic Bishop of Antonelli, the so I and master conducting spirit of the soleme for the destruction of American liberty have not been called to Rome in vain. The steps that have been taken in prosecution of the enterprise have been marked by most con-summate cuming and reveal the most minute and just appreciation of the gullibility and self-sufficiency of the American share-ter. When in the whole history of that remarkable traternity of men, who for the last three hundred years have controlled by their secret & unscrupulous machinationo a majority of the empires and governments of the world, can there be a series of events adduced that will parallel in audacity and success those that have transpired in the United Status during the last ten years under their direction.

First, the war of religious races first pro-

First, the war of religious races first produced by a simufaneous and premeditated attack on the Protestant faith and the common schools of our country—by which means the Romish population have been brought almost entirely and exclusively under the control of their Priests. The success that has attended the establishment of those secret dens of wickedness and conspirings—the convents—which have been placed beyond the reach of law or of public opinion by the disgust that the conduct of one of their own agents, if not of their own body, their own agents, if not of their own body, inspired whilst acting as a member of a committee of the Massachusetts Legislature and again, when the American people in the simplicity of their patriotic devotion had been raised almost to a man without regard to section and arrayed in hostile attitude against the foreign and now almost excluagainst the loreign and now timost excui-sively Democratic party—who can suffi-ciently admire the adroimess with which they scattered the party to the winds—by simply inspiring the chosen ostensible leader of the Democratic party (but their own creature) to move in Congress the repeal of the Missouri compromise—which has set on foot a train of sectional issues, under the cover of which, they are now secretly, rap-

idly, perfecting their schemes.
Yes, Mr. Editor, there are now in this country not less than five hundred thousand men, among whom are thousands of mur-derers and other convicts from the prisons of Catholic Europe, who are disciplined and wholly controlled by the Romish Priesthood. They are at present used by that Priest-hood to act as one man in politics, and they can and are intended yet to be so used in war. The day may not be far distant when the foreign wire pullers may deem the time the foreign wire pullers may deem the time auspicious to spring the mine, that they have prepared for our speedy destruction. Bishop Hughes holds the power and the torch—he waits but the signal from over the waiter. Then when the North and the South are hasy entiting each others throats, the time of poisoning in earnest may come. Buchanan was not the nominee of the foreign wing of the Democratic party, and any that account rould they rate, on the Vice.

foreign wing of the Democratic party, and on that account could they rely on the Yieo President—being amenable to authority—or to the dictation of Douglas, (their pet Louis Napoleon)—the future Emperor of the Democratic party,—in that case I should not deem it impossible that the Editor of the Post may be right in supposing that the white powder had been already introduced into American politics. Replace Buchanan with Douglas, or with any Commander-in-Chief of the Army of the United States, amenable to authority, and the way of the church will thenceforth be easy.

Of course, when hostilities between the two sections commence in carnest, troops must be called for by the Commander-in-Chief to suppress the civil war. Five hun-

Chief to suppress the civil war. Five hundred thousand men, each one of whom has been my acriously imbued with a belief that his services are yet to be required in some way for the furtherance of the glory of the HolyChurch in the U States, and that he is

to be rewarded with rapine and plunder, right or power to make good bargains for and eventually with possessions in the con-quered country, will respond to the call.— Then indeed Ho'y Church will rise from her ashes and stand exalted on the heights,with spice and secret agents in almost every family of the land, ready to poison or do the bidding of foreign Democratic politiciaus, who in no age or country have ever been known to hesitate in the use of means where the interest of the "society" or of "Holy Church," has been at stake, with devoted standing army of some hundred thousand of cut-throats, to do the biddingthe people of these United States may begin to cry out in their divided and distracted strength—give us a Louis Napoleon, for an Emperor— a Douglas or a stick—a log or anything for a Kine, rather than such a state of anarchy, assassination and poison.

I hope, Mr. Editor, that you will upon reflection permit him of the Post not only to establish his favorite theory "of poisoning" but request him to state from whence it originated. In great baste, to state from In great haste,
JUNIUS.

SATURDAY MORN'G, MAY 16, 1857

ON THE OUTSIDE OF THIS ISSUE - First Page-"Save us from our Friends."

We copy from the New York Tribune of the 13th inst, the following item of intelligence, relating to the new Naval Station about being established at the South :-

"Secretary Toucey, after a careful consideration of the subject, proposals, &c., has agreed to purchase eighty acres of land in Blythe Island, Ga, for the erection of a new Naval Depot. The price fixed upon for the land is One Hundred and fitty thousand

Only One Hundred and fifty thousand dollars-that's all, for eighty acres of Sandy land on the Southern coast of the State of Georgia. That is at, and after the rate of 1875 dollars per acre, and not for the whole Island, but only a part of some insignificant little sand bar, which hardly any one out of sight of it ever heard of. We know there are certain islands on this section of the coast, like Sapelo and St. Simon's, which are valuable to their proprietors for the production of Sea island cottons, but the value of even these is to be attributed more to the negroes who work upon the plantations, than to the land itself. It can hardly be presumed that the Government have purchased any negroes in the above bargain, yet we cannot account for this exorbitant price upon any other principle, for we will venture to assert, that the whole coast on the Atlautic, from the St. Croix in the North East, to Florida Cape in the S. and thence along the shores of the Gulf of Mexico to the Rio Grande, and we shall not be able to find, on island or main land cighty acres of land, of any quality, which by itself could in a contract between one man and another be sold for one quarter the wrice which Mr. Secretary has agreed to pay for this eighty acres on Blythe Island. Uncle Samuel has a deep pocket, we well

know, and it ought to be deep. His deep pocket happens at this time to be well filled with the yellow boys, this ought likewise to be the case in view of such extravagant expenditures. But how long will it be, if money is squandered after this for him, before the deep packet is emptied, and the Tariff undergo another revision to increase the revenue?

But there is another view of this matter. The Charleston Mercury (good authority we should think,) -publishes the following :-

"In Brunswick, Geo., the British Brig "In Brunswick, Geo., the British Brig Lion, in getting under way on Wednesday last, caught her keel in the mud, having seven and a half fathom under her bow.— She was severely strained, and filled with

This Brunswick is the point of Coast or spot fixed upon for the new Naval Station. It is a small port some 75 or 80 miles South of Savannah, and in the vicinity of which, if any where, is to be found the 80 acres of land on Blythe Island, for which the snug little sum of One Hundred and fifty thousand dollars, has been, or is to be, paid.

What would our readers think if the owner of Gould Island should be fortunate enough to sell his property, comprising some 40 or 50 acres, after the rates named above, thereby realizing some 40 or fifty times the price he paid for it. Would they not be inclined to believe that there was something rotten in Denmark. Yet there would be no risk of British Brigs or even British Ships of the line, nay, the Great Eastern herself might go to sea from this Island, without straining herself or sticking her keel in the mud. Then again it is to he considered that the enormous sum of One Hundred and fifty thousand dollars paid for the land merely may be considered in the light of current money, only, paid by the Government to bind the bargain. It is the first instalment of the millions, which in the course of time must be expended here, and to prevent the whole concern being sacked, plundered and burnt up, in case of a toreign war, millions more must be expend. ed to construct fortifications, support strong garrisons and other means of defence.

The white population in that part of Georgia (who according to Judge Taney are the only lawful citizens) are so few and sparse and so greatly outnumbered by the Slaves, that they can hardly protect themselves from the negroes, much less will they be able to defend the Navy Yard with its large amount of public property, from the

attacks of foreign enemies. It is the misfortune of little Rhode Island that she has no friends at Court, no Secre taries of the Treasury or Navy to speak a word in her behalf, none who have the

er benefit, or pay the consideration agreed pon. Yet no fact is better established han the fact that, take the whole line of our lea Coast on the Atlantic and on the Paific, Nature presents no portion of it, so tompletely fitted by her own workmanship, to thoroughly adapted to all the requirejuents of a Naval Station; as the waters of the Narragansett Bay. This was a subject of remark on the first discovery and settlement of the country, and has from time to ime during the last two hundred years been anctioned by the opinions and recommenlation of scientific men of every nation besides our own, who have made themselves amiliar with the subject. We have no obections personally, or as citizens of the North to the establishment of a Naval Station at the South or any other necessary place, provided a due regard is paid to an economical disbursement of the people's money; but what we desire to say and earnestly impress upon the consideration of our Government is, that the establishment of a Navy Yard in the waters of this Bay, is imperatively demanded, nature herself invites it and in our humble opinion the great and overshadowing interests of our Commercial Metropolis can in no other way be so completely secured. Without it New York may be said to have her back door unbolted, and we all know that the thief, the robber and the assassin are much more accustomed to enter the mansion in its most seeluded and therefore its most as sailable part.

Will not New York help her little sister to obtain her rights and have justice done her?

We would recommend to the Providesce Post the perusal of the communication on our first page, entitled, "Save us from our friends"-it is written by an esteemed correspondent and is well worthy of examination by those who have 'taken in the Post's poisoning theory.

### LOCAL NEWS.

We would again call the attention of our readers to our advertising columns Which always contain much that is new and interesting. By reference to these columns a good idea can be formed of the best and cheapest place to buy goods of all kinds, as the advertisers always comprise the most worthy and liberal of our tradesmen and mechanics.

It will be seen that the Messrs. NEWTON BROTHERS have favored us with quite an extensive list of advertisements. These are not only interesting to the purchasers of such goods, but show a spirit of enterprise worthy to be copied by all our husiness men who wish to succeed and become as prosperous in their line as the Mussrs. Newtons have become by their industry, enterprise and liberal advertising.

Mr. A. J. Ward has handed us from the Publisher's Messrs. Sanborn, Carter, Bazin & Co., two numbers of their Fireside Edition of Scott's Waverly novels, viz :-

Waverly and Guy Mannering. They are neatly bound in muslin and are each illustrated with two beautiful engravings.-Two volumes are bound in one book and are offered at the low price of \$1.00 .-Scott's works need no puffing to bring them into notice, their merits are too well known to need comment. They are not only attractive and pleasant reading, but contain much valuable Historical information,

We shall speak more fully of the merit of each succeeding number as we recieve it, and hope to do justice to a set of works which have been justly celebrated, and will continue to be so as long as good reading is appreciated. The publishers should be well repaid for their enterprise in giving this valuable reprint to the American pullic.

To walking through our streets we meet with unmistakable evidences that Election is close upon u . Many of our houses and stores are being improved by the brush of the painter, and the entire city begins to wear a busy aspect that betokens the near approach of our great annual Holiday. Our country cousins will soon be our guests, and as they will all wish to purchase more or less from our merchants, we invite them to avail themselves of our disinterested hint. thrown out of course for their benefit, and send us at once their advertisements; so that they may be sure to catch the eye of every new comer. The prospect is most encouraging for an excellent summer business, and the retail traders will shortly be exhit. iting their wares to crowds of eager cus tomers.

We have received from the publishers, Messrs, O. Ditson & Co., through the po-liteness of Dr. Wood of the City Music Store, the following valuable music:

Yesterday was a sad, gloomy, melan... cholv day, when, if ever, people think of jumping overboard, or shooting themselves with one of Colt's revolvers. But blessings on the sunshine! June will soon be here with its flowers, and its golden sunsets, to say nothing of its comet, and then we shall forget the chilly Spring, the fearful leap, and the cold lead.

## GENERAL NEWS.

# Correspondence of the News.

NEW YORK, May 14, 1857. Somewhere between 30 and 40 distinct Bible, Tract, Missionary, Anti Slavery and other associations, city State and National -are holding their annual meetings here during the week—say an average of half a dozen per day. The places of meetin: are widely scattered, but mostly among the various churches up and down the city, So far as I have had the opportunity of observing, the meetings are largely attended, and many eloquent and popular Speakers are engaged—including not a few from other and even distant cities.

That the various moral, religious and philauthropic organizations, whose anniver-saries are now in progress, have exerted a wide and potent influence upon the world, must be conceded by all intelligent minds; and that their influence has, on the whole been largely beneficial, is quite as certain.— But comparatively few of the community are, I suspect, aware how widely extended are, I suspect, aware now watery extended and expensive are the operations of these Societies—the receipts o the Presbyterian Board of Missions, for the past year, being upwards of Two Hundred Thousand dollars those of the American Board of Commissioners for Foreign Missions above Two Hundred Thousand - and those of the American Tract Society reaching the enprmous aggregate of Four Hundred and Thousand dollars. And the ex penditures of these bodies are in general quite as large as their receipts—often larger. The total income of 14 of the principal Societies for the past year has been \$1,278, 328, (one million two hundred and seventyeight thousand three hundred and twenty eight dollars;)—total expenditures \$1,310,049, or \$21,721 over the receipts.

The Hon. Thos. J. Oakley, Chief Justice of the Superior Court, one of the oldest and ablest judicial officers in the State, died at his residence in this city on Monday evening, after a short illness. He was formerly Attor ey General of the State, subsequently a member of Congress, and finally one of ly a member of Congress, and finally one of the Judges of the Supreme Court for nearly thirty years past. As a magistrate, he pos-sessed rare and admirable qualities, and his departure has produced a deep and general sensation. His age was 74 or thereabouts. An arrival at New Orleans from the Isth-thermulaed bitther to day, brings worl

mus, telegraphed hither to-day, brings word of the final escape of the filibuster "General" Walker from Nicaragua. It was said he had taken refuge, with the remnant of his ragamulin ollowers, on board a British man-of-war. Thus endeth a very base at-tempt to seize on a neighboring territory, (with which we were under treaty stipulations of pe e and friendship,) and bring it under the iron hoof of Slavery; an attempt contived at by our Government, and openly aided and abetted by thousands of unprin-

cipled individuals, here and elsewhere. The organs of the Sham Democracy are in costacies to-day over a mustering of their ast evening, to denounce the acts of the late Legislature in regard to this city.— Capt. Rynders and John Cochrane were he chief trumpeters, and a volley of resolutions was discharged at the obnoxious law-givers—the highly restrictive Liquor law givers—the highly restrictive Liquor law being evidently a great eye-sore with the assembled patriots from "ould Ireland" and Deutse dand.

The publishers of the Daily Times are about to erect for their own use a stately and expensive building, on the north easter-ly end of the old Brick Church lot, corner of Park Row and Spruce Street. The for the lot alone \$100,000, and the They pay ture is intended to cost some \$60,000. to be of Stone, 5 stories high, with 60 feet front on Spruce Street, 95 feet on Nassau, and 100 feet facing the Park, with roomy subterranean space of the Times printing muchines. The Times folks say they mean to have the handsomest—office in the cityto be ready for use before winter. It will be a near neighbor to the Tribine; and as these journals are both engaged professedly in the same good cause, we hope they will try to keep the peace—which they have not always done bitherto, as regards each other.

A smart operation has been performed, under the sanction of the city authorities, a I suppose, in the erection of what purports to be a statue of Gen. Washington, on one of the grass plats in front of the City Hall— a souff-colored stone effigy, executed by Thom, a Scotchman, and which looks about s much like Tom Nokes as it does like ashington. Somebody ought to be indicted for posting such an absurdity in such

place.
The Cunningham trial having come to nothing, Dr. Brandreta, the pill-man, has written a letter to the Times, in which he offers to be one of 20 or 30 persons to give \$1,000 each for the discovery, and conviction of the person or persons who murdered Dr. Burdell. And he thinks the public authorities ought to offer a reward for the ante burnose. RAMBLER.

for the hair, and keep always upon the toilet a bottle of the Restorative for occasional use and we can safely predict, that henceforth silver locks will be upon bald heads. Let the dark eye be ever so picreing,—and the teeth be those of pearl—still, if the natural laids be withheld from the hair, and in consequence becomes first dead and harsh, then gray, or fals off nature will be robbed of more than half its charms; as it is a sovereign remedy for those who are gray as well as those who are bald, all must see the propriety of making only such application to the hair and scalp as is calculated to preserve both in a healthy state.

From the editor of the Real Estate Advertiser No. 2 School Street.

Boston, March 29, 1855.

Prof. Wood—Dear Sir—Having become prematurely quite gray, I was induced some 0 weeks since, to make a trial of your Hair Restorative. I have used less than two bottles, but the gray hairs have disappeared; and although my hair has not fully attained its original color, yet the change is gradually going on, and I have great, hopes that in a short time my hair will be as dark as formerly. I have also been much gratified at the healthy moisture and vigor of the hair, which, before was harsh and dry, and it has ceased to come out as formerly.

Respectfully yours,

moisture and vigur of the hair, which, before was harsh and dry, and it has ceased to come out as formerly.

Milford, Worcester Co., Mass., Nov. 13th, 1855.

Prof. O. J. Wood—Dear Sir—I take pleas ure in hearing valuntary testimony to the magic effects of your wonderful Hair Restor ative. As far back as 1835 my hair commence dalling off until the top of my scalp became bald and smooth as glass, and it has continued to full off for a great many years, notwithstanding I have used many celebrated preparations for its resturation. Seeing your advertisement I was induced to give your article a trial, and to my utter astonishment I found after a few applications that my hair became firmly set and assured by very glossy and beautiful appearance; and at the time I had used a quart bottle, my bald head was covered over with a young and vigorous growth of lair, which is now from one to two inches in length, and growing very fast.

length, and growing very fast.
Yours, truly,
HENRY GOODRICH. HEARLY GOUDERICH.

TREES AND SHRUBBERY.

ORNAMENTAL SHRUBBERY!

The subscriber would respectfully call the attention of the public to his extensive and well assorted nursery stock of Trees, Plants, Vines and Skrubbery, which he had at his nursery in Elmwood, in Cranston, only 1 1-2 miles from the centre of Providence.

dence.
To his former extensive stock he has made great additions of the actual varieties, and flatters himself that no nursery in the vicinity of Providence contains so large a stock, or so great a variety of all kinds of articles in his line of business. He would call especial attention to his stock of Fruit Trees, amounting to more than 50,000—a large proportion of which are of extra size and, in bearing condition. Among them may be found the Pear, Peach, Plum, Nectarine, Apricot, Quince, Apple, Cherry, and all the different variety known to the American gardner.

The Hartford Prolific Grape Vine, the most delicious and profitable variety of Grapes to be found in this climate, may be had in large quantities and in the most healthy condition. This Grape is new to this part of the country, is very rapid in its growth, bears in greater abundance, and ripens at least two weeks carrier than the Isabella Grape. Also every other variety of Grape Vines.

The "New Rochalle," or "Laxton Blackberry," a new article to our gardens, may also be found at the Eagle Nursery in anatytics to To his former extensive stock he has made

The "New Rochelle," or "Laxton Blark-berry," a new article to our gardens, may also be found at the Eagle Nursery in quantities to supply the market. This Berry is much sought after, and is a very profitable one to cultivate.

Ornamental Trees, of every hardy variety, and every article constantly on hand necessary for a complete associment of nursery stock; all of which will be sold at as low, if not low er prices, than the same articles can be found at any other nursery in this vicinity.

The Elmecod Omnibus, which passes the Nursery, starts from Market Spaner in Providence at every hour of the day, at the striking of the clock.

The sclenes of Chemisty and Medicine have been texed their utmost to produce this best, meat perfect purgutive which is known to man. Innumerable proofs are shown that these Pills have virtues which surpass in excellence the ordinary medicines, and that they win unprocedentedly upon the exteem of all men. They are safe and pleasant to take, but powerful to cure. Their penetrating properties atimulate the vital activities of the body, remove the obstructions of its organ, parify the blood, and oxpel disease. They purge out the foul humors which breed and grow distemper, stimulate singgish or discovered organs into their natural action, and impart healthy tone with strength to the whole system. Not only do they care the every-day complaints of every body, but also formidable and dangerous diseases that have baffled the bost of human skill. While they produce powerful effects, they are at the same time, in diminished doese, the safest and but physic that can be employed for children. Reing sugar-coated, they are pleasant to take; and being purely vegetable, are free from any risk of harm. TESTIMONIALS.

During the time I occupied the office of commissioner of Patents, R. H. Eddy, Esq., of Boston did husiness at the Patent Office, as Solicitor of procuring Patents. There were few, if any persons acting in that capacity, who had so much business before the Patent Office; and there were none who conducted it with more skill, fidelity and success. I regard Mr. Eddy as one of the best informed and most skillful Patent Solicitors in the United States, and have no hesitation in assuring inventors that they cannot employ a person more competent and trustworthy, and more capable of putting their applications in a farm to secure for them an early and favorable consideration at the the Patent Office.

MEDICINES.

THE GREATEST WONDER OF THE AGE.

A REMEDY which CURES IN FIVE MINUTES.—M. LEROUX'S French Cholera Cognae Bitters. This truly wonderful socientific compound is recommended by the most eminent and learned physicians of all Europe and America, and enjoys the best reputation of anything similar ever offered. It is without doubt, the best most efficient and generally neknowledged remedy against cholera, dysentery, diarrhoea, and complaints of the stumach in general. The numerous patients who have tried it according to directions have invariably found relief in a very short time, and the best proof of it is, that since this standard remedy was introduced in the armies of the Allies in the Crimea, the mortality of the soldiers from cholera and similar diseases was diminished by over 75 per cent; in consideration of which, the inventor was presented by the French and English governments with a gold medal, bearing the inscription, "Hail! M. Leroux, the great chemist and inventor, by whose knowledge our armies are preserved from cholera."

This invaluable preparation is also a remedy for billiousness, indigestion, weakness, and general derangement of the stomach. Upon being taken, it creates appetite, and prevents the heaviness attendant upon eating by persons who are dyspeptic.

In this city, also this remedy has been tried

sons who are dyappytic.

In this city, also this remedy has been tried with the most undoubted success, and the undersigned can produce the best testimonials of our most celebrated physicians, as to its immediate and complete success, which he will be happy at any time to show to any that may wish to see them.
